SUMMARY

Motivated IT graduate with expertise in software engineering and a keen interest in artificial intelligence and machine learning. Eager to apply advanced technical skills and knowledge gained through academic projects and internships to drive impactful software development in a dynamic environment.

KEY COMPETENCIES

Process improvement

Data-driven strategic planning

Cost-benefit analysis

Report writing and presenting

Critical thinking skills

Excellent communication skills

Strong interpersonal skills

Proactive and self-motivated

Exceptional organisational skills

PROFESSIONAL EXPERIENCE

Airan pvt . ltd

Feb 2021 - Aug 2021

Software engineer

- Improved user experience through intuitive interface design and responsive web applications.
 - Engaged in the architecture, design, and implementation of backend features using Python.
 - Applied testing methodologies by creating and executing test plans, utilizing debugging tools.
 - Managed detailed documentation and conducted training sessions for new team members, boosting onboarding efficiency by 25%.
 - Collaborated with cross-functional teams such as designers, testers, and project managers to meet project deadlines.
 - Cultivated a collaborative atmosphere that enhanced productivity and code quality.
-

EDUCATION

Master of Science and Information Technology (M.S.cIT)

GLS University |2023-2025 - At present

Grade - O

Bachelor of Science and Information Technology (B.S.cIT)

GLS University |2020-2023

Grade - A

12TH

Divine Life School |2019-2020

Percentage : 73%

10TH

Divine Life School |2017-2018

Percentage : 67%

RELEVANT COURSEWORK

- *Master in Artificial Intelligence*

TECHNICAL SKILLS SUMMARY

- | | |
|----------------------------|----------------------------|
| • Python | • UI/UX DESIGN |
| • Flutter | • CLOUD TECHNOLOGY |
| • HTML & CSS | • STATISTICAL ANALYSIS |
| • Machine Learning | • SQL |
| • MS POWERPOINT & MS EXCEL | • R - Programming language |
-

PROJECTS

CAPSTONE PROJECT - ANIMAL RESCUE APP

- Created a mobile application that links users to nearby shelters using Flutter, PHP, and MySQL.
- Integrated real-time location tracking and user notification features.

DISEERTATION RESEARCH IN CLOUD COMPUTING

- Focused on [specific focus], implementing [research methodology] for analyzing [research question].
- Presented complex findings, showcasing expertise in cloud platforms and data analysis.

EXPENSE TRACKER APP

- Developed an expense tracker app using Flutter, incorporating user authentication, expense management, and data visualization.
 - Implemented responsive design for seamless use across devices. Utilized Flutter's widgets and tools to enhance functionality and user experience.
-

INTEREST & ACTIVITIES

- AI and Machine Learning Enthusiast
